

WIRELESS REQUIREMENTS

We offer a wireless system in the basement and ground floor of the Villa Rossa, the Villino, and the adjoining gardens. In order to take advantage of the wireless system, your computer must have:

- A USB port, for the digital certificate installation
- PC or Macintosh equipped with a wireless adaptor. Supported frequency standards 802.11b (11 mbps) and 802.11g (54mbps).
- **For PC users:** Microsoft Windows XP with service pack 2.
Please note that service pack 2 is a mandatory requirement.
- **For Apple Macintosh users:** Mac OS X 10.3 or later.
Please note that Mac Os X versions prior to 10.3 are not suitable for our digital credentials system.

How to sign up

You can sign up for wireless during Orientation week. You will need to bring your computer to Room 7 of the Villa Rossa during the times posted in the Orientation Schedule upon your arrival.
